

Pollen Trap – 10 Frame – Assembled & Painted- Beekeeping Equipment

This Pollen Trap makes harvesting Pollen easy. It has a reversible drawer that can be used on either side of the pollen trap which allows you to decide which side will slide out. As the Pollen Trap fits below the brood chamber, the Bees enter through the Pollen Trap entrance. They go through a screened area where the pollen falls off and is collected in a protected drawer below. They come in 8 & 10 frame sizes, assembled, painted & unpainted.
