Honey B Healthy – Pint – Honey Bee Supplies

Honey B Healthy contains essential oils, like lemongrass and spearmint. It's a more natural solution to the health issues

of honey bees. This feeding supplement is used in the bees' syrup solution during the spring feedings. It helps keep bees healthy even if there are mites present.

Honey Bee Supplies

Pro Winter Pollen Patties – 40 Pack

Pro Winter Patties provide carbohydrates. Only a small amount of protein, to keep your bees from rearing brood too early.

You would need to change to a different pollen patty as warm weather approaches, such as Ultra Bee or Bee Pro® Patties which will provide the necessary carbohydrates and protein for brood rearing.

Amino-B Booster – Pint – Honey Bee Supplies

Keeping your Bees healthy is important. Amino-B Booster contains a variety of amino acids which keep your Bees healthy, thriving and stimulates brood rearing.

This supplement can be used for feeding bees during times of colony dwindling, late winter, midsummer, and droughts.

Be sure to add Honey-B-Healthy® to your corn syrup or sugar water mix to help preserve it and reduce fermentation.
