

NUC Kit – Medium – Assembled & Painted-Beekeeping Equipment

Our NUC Kit comes to you in a Medium or Deep box unassembled, assembled or assembled & painted. This kit includes a Telescoping Lid, Solid Wood Bottom Board & Inner Cover.

Our NUC Kits holds five 9 1/8" frames which you will need to order separately.

Bees are not included in the kit.

Pollen Trap – 10 Frame – Assembled & Painted- Beekeeping Equipment

This Pollen Trap makes harvesting Pollen easy. It has a reversible drawer that can be used on either side of the pollen trap which allows you to decide which side will slide out. As the Pollen Trap fits below the brood chamber, the Bees enter through the Pollen Trap entrance. They go through a screened area where the pollen falls off and is collected in a protected drawer below. They come in 8 & 10 frame sizes, assembled, painted & unpainted.

See video for more information:

Sourwood Honey – 1 LB

All natural, pure raw honey, made using sourwood trees, in an oval shaped bottle.

Beekeeping Straw Hat w/ Veil – Beekeepers Protective Clothing

Very handy, light and durable. Perfect for Quick inspection of hive. Hat has a wide brim, black durable mesh at front, and netting at back and sides to keep you cool. Elasticated at neck and held in place with elastic under arms. Netting keeps bees and other insects off your face while working, effective and comfortable protection. Elasticated arm loops and around bottom to ensure secure fit against clothing. Hat Color is straw brown and veil is black. Brim of hat is 13 1/2" x 12 1/2"

(Bee-ware: Never visit your hive without wearing, at least, a veil. If your bee colony seems more aggressive, more protection is advised. Bee safe!)

Bee Veil – Beekeepers Protective Clothing – Beekeeping Equipment

Max Pro Feeder – Deep – 2 Gal w/Cap and Ladder

This plastic feeding vessel not only resembles a standard frame, but replaces one in the deep hive body. It is placed next to the outside wall and filled with syrup. The wooden “caps” cover parts of the feeder, so that the bees do not just fall in and drown. The “ladders” are there, so that if a bee does fall in, it can use the ladder to climb back out.

Pro Feeder – Deep – 1 Gal w/Cap and Ladder

Pro Feeder – Medium – 1 Gal w/Cap and Ladder

This plastic feeding vessel not only resembles a standard frame, but replaces one in the deep hive body. It is placed next to the outside wall and filled with syrup. The wooden “caps” cover parts of the feeder, so that the bees do not just fall in and drown. The “ladders” are there, so that if a bee does fall in, it can use the ladder to climb back out.

Top Feeder – Double Compartment – 10 Frame – Assembled

This style of Top Feeder delivers syrup fast and can hold several gallons. The bees walk up through the center. The screen goes over the sides of the dam and down to the bottom of the pan which will help to prevent bees from drowning. The bees enter through the bottom of the feeder, drink the syrup, and have little risk of drowning with the screen present over the opening of the feeder! You will love this design! (Floats sold separately, but are not needed with the screen in place.)
